

IST at a glance:

- founded in 1963, parent governed, not for profit, independent, co-educational day school with English as the principal language of instruction
- two campuses: Elementary (early childhood to Grade 5 offering the Primary Years Programme) and Secondary (Grades 6 to 10 offering the Middle Years Programme and Grades 11 and 12 offering the Diploma Programme)
- well resourced facilities on both campuses supporting an excellent learning environment

THE SCHOOL COMMUNITY

IST is a truly international school which serves children of both expatriate and Tanzanian families from the diplomatic, development, non-governmental organization (NGO), local and international business sectors.

Each year, IST offers a limited number of merit and needs-based full tuition, IB DP (two year) scholarships to high achieving Tanzanian students who are outstanding contributors to their communities and will continue to proudly serve the best interests of our host nation.

IST has an exceptionally diverse international student body of 424 Elementary students and 465 Secondary students. 66 different nationalities are represented and nearly 80% of IST students are multi-lingual. Our admissions policy is inclusive, with students admitted with mild to moderate learning needs. Around 60% of our students speak English as their first language.

ACADEMIC PROGRAMMES AND QUALIFICATIONS

IST Secondary offers the International Baccalaureate MYP and DP. Students have an opportunity to earn a US-style IST High School Diploma, as well as the IB Diploma. Students may also earn certificates for completing IB courses. IST students consistently exceed the world average for IB DP scores. The academic year is 180 instructional days consisting of two 18-week semesters (August to January and January to June).

CO-CURRICULAR ACTIVITIES

IST students participate in a wide range of athletic, community service, cultural and personal enrichment activities including Student Council, Model United Nations, Roots and Shoots, theatre and music. An extensive selection of service options has been established with local community groups. IST strongly encourages students to take leadership roles in one or more service activity. Senior athletes and students pursuing STEM compete against other students in the International Schools of Southern and Eastern Africa tournaments and conferences. IST students are able to capitalise on the ecological and geographical wealth in Tanzania by participating in a range of outdoor pursuits such as climbing Mt. Meru and Mt. Kilimanjaro.

GRADE POINT AVERAGE (GPA) AND CLASS RANKING

The IB Diploma Programme, which is taken by the majority of the students, is inherently rigorous. IST does not calculate GPA nor provide class ranking for students.
